# Learning Objectives

# Prerequisites

## We expect students to have

- some basic programming skills
- some basic software engineering

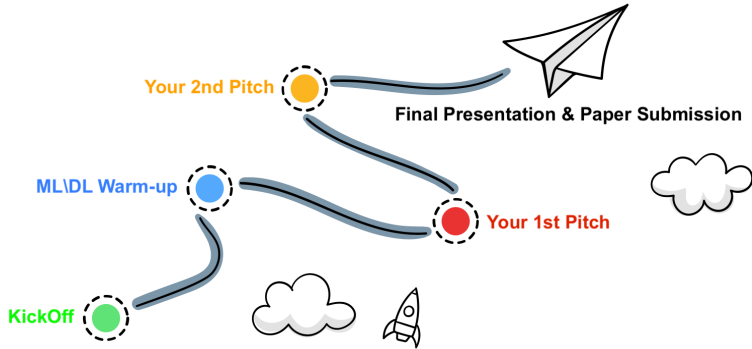

## We **don't** expect students to have

- hardcore Math knowledge
- ML/DL knowledge
- prior specific programming language knowledge<sup>1</sup>

---

We recommend using 🧐 × 📖 × 🔧

# Mandatory Milestones

# Organization

**BPC Next-Gen Programming** is offered:

- to students in Heilbronn and Garching
- in a hybrid format (online & in-person)
- using GitLab (no Moodle)

**Final Presentation:**

- takes place in-person in Garching
- for Heilbronn students, a one-day excursion to Munich

Do not be afraid!

If you put **some effort** and *participate actively*, you can **expect a grade**  $\leq 2.3$ .

## How to Get a Spot?

If you are a student from

- **Heilbronn:** apply thru campus
- **Garching:** apply thru matchmaking

Selected students will be notified before the semester begins.

**Question?**
